Driver C | Measurement

1 **Adopt measurement as a signal for and driver of equity and improvement**

- Use measurement to continually and comprehensively understand, test, and refine decisions, actions, and strategy

2 **Architect practical, integrated, measurement structures**

- Expand the scope of measurement

- Hardwire systems to surface improvement opportunities

- Declutter data practices, and simplify measurement systems

3 **Cultivate a culture of measurement for learning**

- Fuel discovery through shared goals and measures

- Build organizational capacity to engage in measurement

- Think beyond numbers
